

Studio Diseña

Designing a better tomorrow

Hofi Oasis Design

About us

Design approach

At Studio Diseña we think about design in principle as storytelling. The main question being: what story do you want .to tell with your building

With design we can solve problems, in ways we normally,do not think of solving them

And in doing so we wish integrate storylines with design

01 Cijntje Residence

Hofi Oasis

Hofi Oasis total plan

Modern Living at Its Finest

Our community comprises 10 exquisite villas, each boasting a generous 120 square meters of living space, and 3 luxurious apartments that redefine sophistication. Whether you choose a villa or an apartment, you'll be greeted with the highest standards of design, craftsmanship, and comfort.

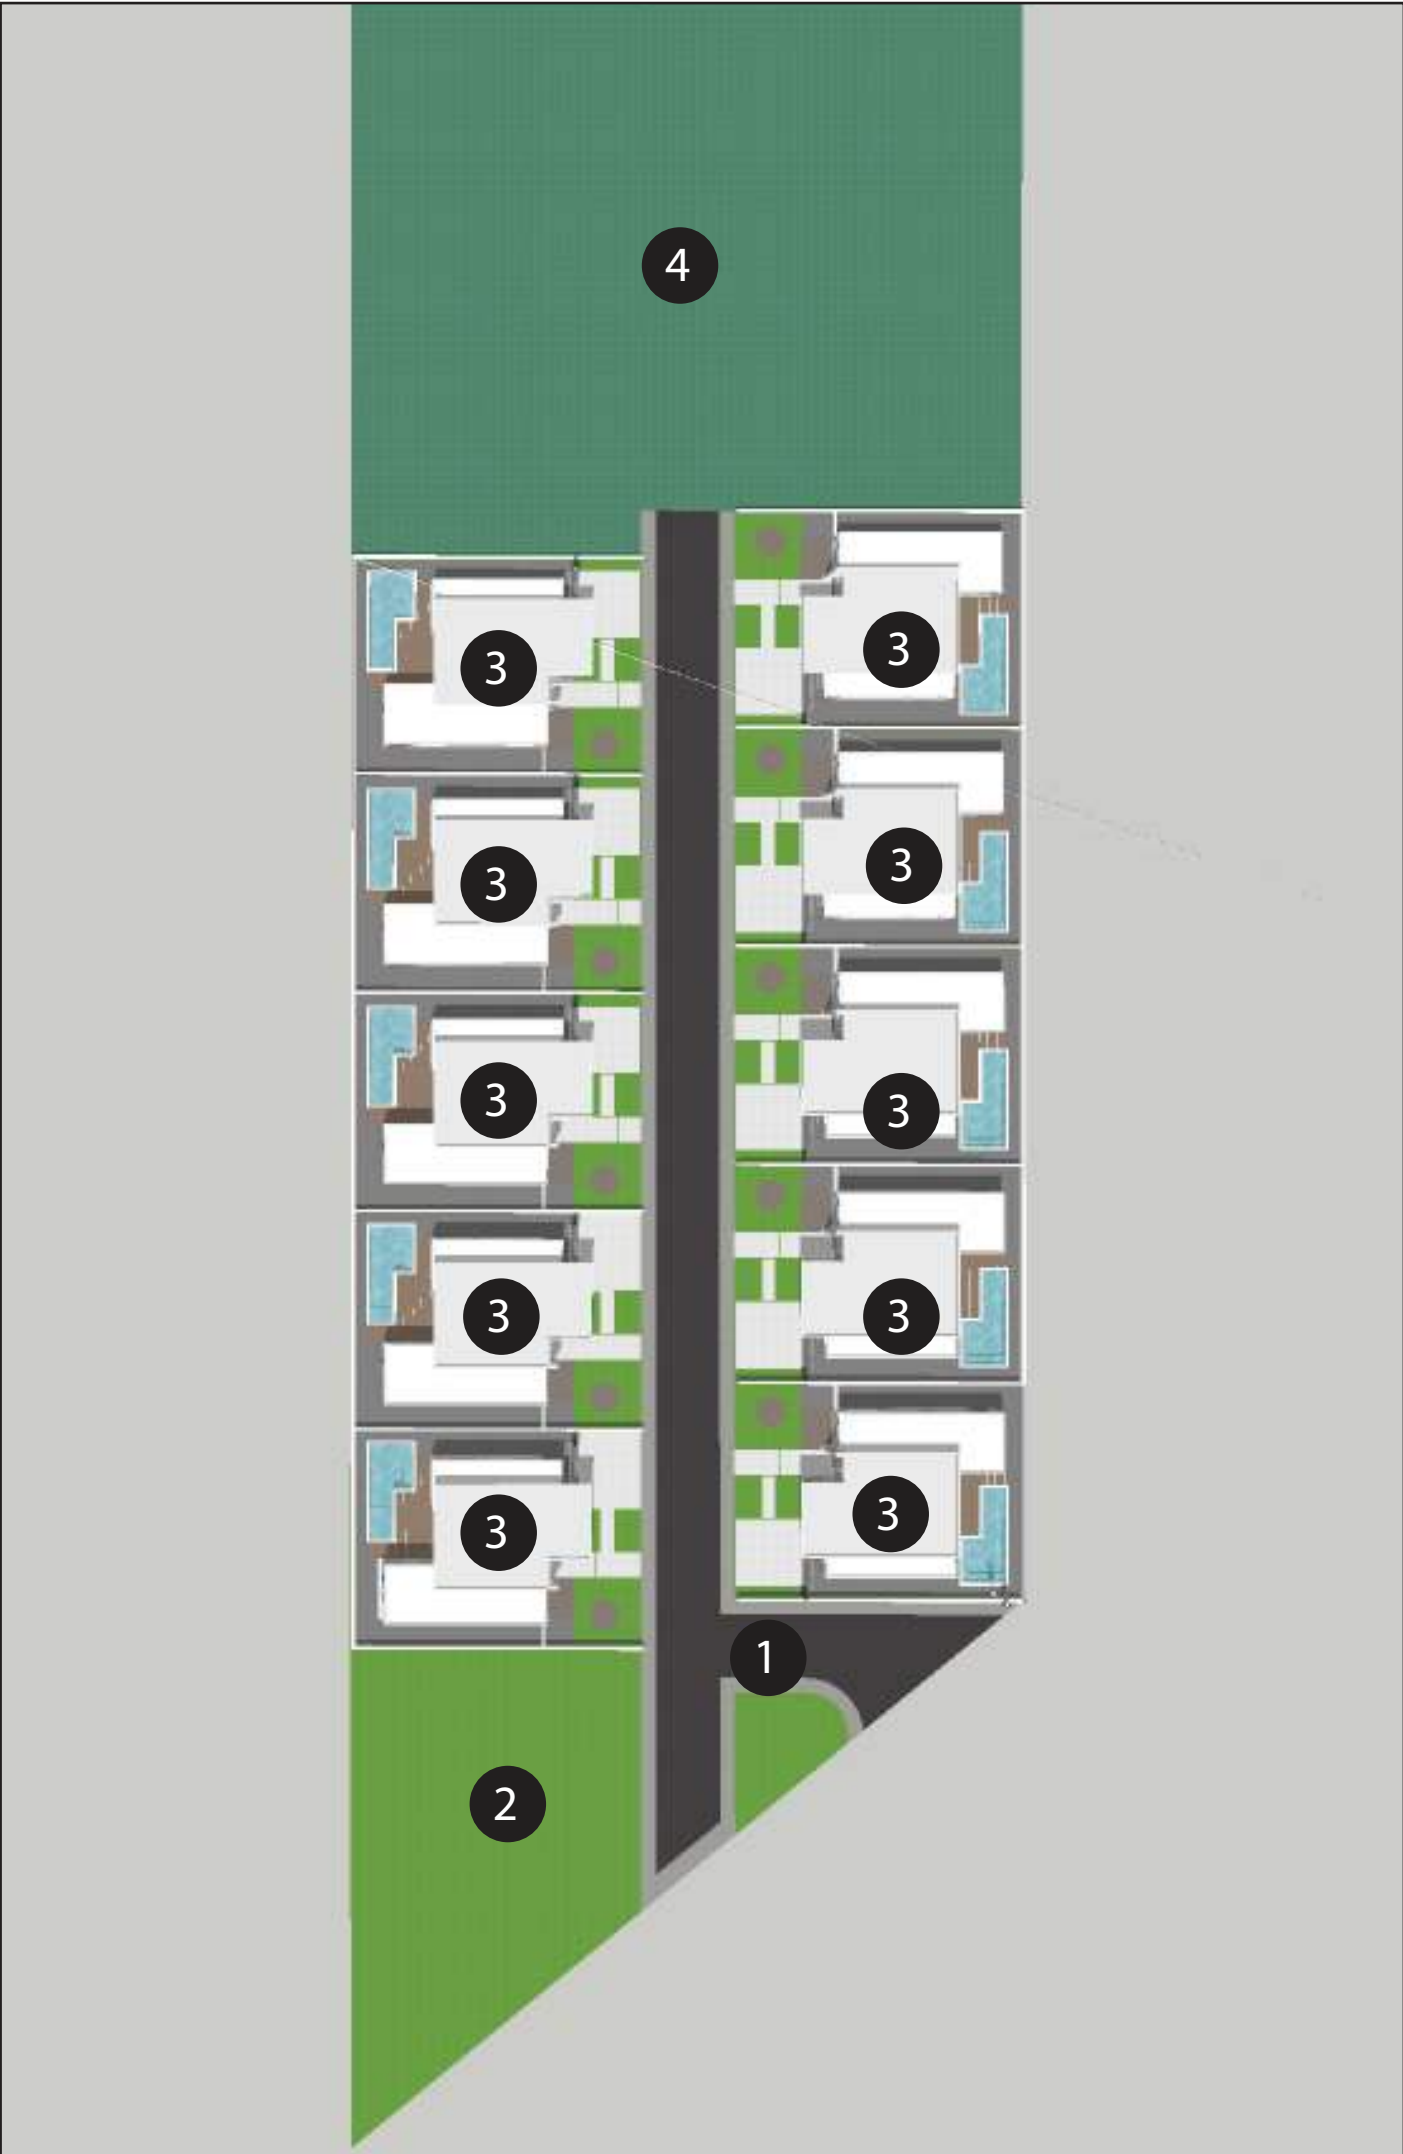

Connecting with Nature

One of the standout features of Hofi Oasis is our 2,000 square meter nature area, exclusively reserved for our residents' enjoyment. This lush green space creates a serene and calming environment, inviting you to unwind, meditate, or simply take leisurely strolls amidst nature's beauty. It's your private oasis within an oasis.

Inside-Out Living

Hofi Oasis has been meticulously designed to seamlessly blend indoor and outdoor living spaces. Large windows and open floor plans flood your home with natural light, and expansive terraces provide the perfect setting for al fresco dining, relaxation, and entertaining. Here, you'll truly experience the essence of an oasis, where the boundaries between your home and the surrounding beauty blur.
